

DEAD HUSBAND'S SPIRIT 'CALLS' HER, SHE SAYS; GOES TO BE 'NEAR' HIM

Mrs. Friend Moves to Boston
to Get Daily Messages
Through Medium.

BARTFORD, Conn., Sept. 17.—She who might be "near" her dead husband, Prof. Edwin W. Friend, who perished on the Lusitania, Mrs. Friend has left Farmington, Conn., for Boston, where a spiritualistic medium says she is receiving daily messages for Mrs. Friend, who is about to become a mother.

Prof. James Hyslop of Philadelphia, head of the American Society for Psychical Research, has discovered, he says, a wonderful medium in Celestine Glenn Rafter, and the work of the society, which was proceeding slowly because of the difficulties of getting the proper medium, now is making daily progress.

Mrs. Friend and her twin sister, Miss Beate Roberts, formerly were known on the concert platform as the Patience Sisters. They are attractive brunettes, and were finished performers on the violin and cello.

Miss Theodore Pope, the wealthy

daughter of the late A. A. Pope, who was aiding Prof. Friend in his research work, was moved from the Lusitania, and through the aid of the medium advised of the messages received from the Lusitania victims, she decided today to discuss them before Mrs. Friend had had an opportunity to make public use of the records which the widow believes are most trustworthy and convincing in substance in psychics.

Prof. Friend is said to have said that he is happy in his present state, and rather than make monthly visits to Boston, Mrs. Friend has decided to move there, and thus bring herself in daily communication with her husband's spirit.

Thin Men and Women

DO YOU WANT TO GET FAT AND BE STRONG?

The trouble with most thin men who wish to gain weight is that they cannot digest their stomachs or stuffing it with greasy foods, putting on surplus "flesh" or following some foolishly concocted diet, while the real cause of thinness goes undetected. You cannot get fat until your digestive tract properly assimilates the food you eat.

There is a preparation known as reliable digestive almost everywhere, which successfully excludes the stomach elements needed by the digestive organs to help them convert food into rich, fat-laden blood. This preparation is called Benger, and much remarkable testimony is given as to its successful use in flesh building. Benger, which comes in the form of a small, non-digestible tablet, takes no time and mixing with the digestive food, tends to prepare the fat flesh and muscle building elements so that the blood can readily accept and carry them to the starved portions of the body. You can readily secure the transformation from thin to fat by following the directions (and additional and previously lacking) which Benger should bring with your check, filling out. Follow about your back shoulders and back, and you will find your body taking on from 15 to 25 pounds of solid healthy flesh. Benger is harmless, trustworthy, efficient, and the digestive of the stomach have it, and are authorized to refund your money if weight increase is not obtained as per the guarantee found in each large package.

Benger is recommended only as a flesh builder and, while excellent as a remedy in cases of nervous indigestion, etc., have been reported cases should be taken about using it unless a sale of weight is desired.—Advt.

This exquisitely woven, soft, brilliant and luxurious hose is made of absolutely pure-dye thread silk—entirely free from "loading" or "weighting." It has the decidedly unusual merit of durability, in fact, now that silk hose has come to be recognized as a necessity for everyday dress, PHOENIX SILK HOSE, particularly because of its long-wearing qualities, has earned undisputed place as a national favorite.
